

Advanced Training Days & Mentoring with Sascha Krausneker or Joy Ackwonu

Post graduation advanced training days for & with the graduates of **FITP Wien 2019**.

Graduates of the **FITP Wien 2015** and **FITP Wien 2017** are also welcome.

After graduation, one of the main needs of a starting Feldenkrais Practitioner is to widen their Functional Integration spectrum as well as to enhance precision in their hands-on lessons.

The focus of each Advanced Training & Mentoring day will be to clarify one FI configuration that has not been taught in the training program. We will create a relaxed learning environment with an emphasis on the clarity of each Functional Integration lesson and its details. There will be time for mentoring and questions during the lunch break.
