

Advanced Training Days & Mentoring with Sascha Krausneker or Joy Ackwonu

for the Graduates of Feldenkrais Institut Wien

After graduation, one of the main needs of a starting Feldenkrais Practitioner is to widen their Functional Integration spectrum as well as to enhance precision in their hands-on lessons.

The focus of each Advanced Training & Mentoring Day is to clarify one Functional Integration configuration and to enlarge the FI repertoire. We will create a relaxed learning environment with an emphasis on the clarity of each FI lesson and its details. There will be time for mentoring and questions during the lunch break.
