Meet Ortal Goldshmid

Child' Space – Early Childhood Development

Sunday, 29 June 2025 at 15:00 – 18:00

Internationally renowned child development expert Ortal Goldshmid is conducting a Child' Space introductory workshop for the Child' Space Training Program, starting in October 2025 in Vienna, Austria.

Child' Space is a unique method of sensory movement education that encourages babies' development, using mindful touch, playful movement and communication. This promotes learning skills, motor development and social-emotional growth, building a significant foundation for life.

The Child' Space certificate program trains you to work with babies and families, in private lessons and group sessions. You will gain competence to work with babies with a typical development as well as children with developmental delays and special needs.

This workshop will give you the opportunity to experience a Child' Space developmental movement lesson. Furthermore, you will gain insights how this unique approach is applied in a session with baby and caregiver.

Workshop fee:

€ 70,- (incl. USt./VAT)

reduced (e.g. students): € 56,- (incl. USt./VAT)

The workshop will be taught in English.

Please contact us with any questions you might have and to register:
